Claims 21, 22, 24-32, 34, 36-44, 46, and 47 are pending in this application for which a request for continued examination has been filed, along with an amendment which renders the claims allowable over the previously cited prior art, for reasons stated in the response.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Amend claim 28 as follows:

28. The method as claimed in claim 21, wherein the combination is applied post-emergently[. The] and the compounds comprising the combination are applied jointly or separately.

Amend the dependency of claim 47, in line 3, to read: "claim [35] 30, ...".

These amendments are necessary to correct obvious informalities. Claim 28 was incorrectly stated as two sentences, instead of one. Claim 47 was dependent on canceled claim 35, and was amended to depend from claim 30, in order to remain consistent with the other method claims which depend from the remaining composition claims, i.e.: 44 from 32, and 46 from 34.
